1) INTRODUCTION & BACKGROUND

Contract type: Consultancy and Services
Duration of assignment: 120 Days
Type: Individual/ Firm

Background of Project & Assignment:

World-Wide Fund for Nature-Pakistan (WWF-Pakistan), the global conservation organization, has a mission to stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature by

- Conserving the world's biological diversity;
- Ensuring that the use of renewable natural resources is sustainable; and
- Reducing pollution and wasteful consumption

Under its global mission, WWF-Pakistan works with central and local government agencies, the private sector, civil society organizations (CSOs), and the local communities to implement its various conservation programmes in the six thematic areas, including energy and climate, forest, freshwater, wildlife, food and market, and ocean. WWF Pakistan has substantial experience in working with international donors.

WWF Pakistan, founded in 1970, is Pakistan's most significant independent nature conservation NGO, with over 20 offices nationwide. WWF Pakistan has a mission to preserve the country's incredible biodiversity and natural resources through the practices above. Since its inception, WWF Pakistan has implemented over 200 projects and programmes. WWF Pakistan works closely with local and national partners, government, private partners, research, and communities.

Brief Project Description:

Conventional cotton farming has long been linked to critical environmental issues, such as the excessive use of water, the application of chemical pesticides and fertilizers, and the degradation of soil, all of which contribute to an imbalance in ecosystems, ultimately leading to environmental degradation and the loss of biodiversity. WWF-Pakistan has taken the initiative with the financial support of Better Cotton/GIF to implement the Better Cotton project across 07 districts in the provinces of Punjab and Sindh. The project focuses on enhancing the capacity of farmers to adopt the Better Cotton Standard System (BCSS). The primary goal is to extend comprehensive training to cotton farmers, emphasizing the adoption of efficient Cotton farming techniques. This includes the implementation of integrated pest management practices, the efficient utilization of water resources, the enhancement of soil health, the promotion of biodiversity, and the mitigation of social issues such as Fundamental Principles and Rights at Work (FPRW), encompassing concerns related to child labor, occupational health, and women's empowerment.
