1) INTRODUCTION & BACKGROUND

Contract type: Consultancy and Services
Duration of assignment: From signing of contract

Background of Project & Assignment:

The World-Wide Fund for Nature-Pakistan (WWF-Pakistan), the global conservation organization, has a mission to stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature by

- Conserving the world's biological diversity;
- Ensuring that the use of renewable natural resources is sustainable; and
- Reducing pollution and wasteful consumption

Under its global mission, WWF-Pakistan works with central and local government agencies, the private sector, civil society organizations (CSOs), and the local communities to implement its various conservation programmes in the six thematic areas, including energy and climate, forest, freshwater, wildlife, food and market, and ocean. WWF Pakistan has substantial experience in working with international donors.

WWF Pakistan, founded in 1970, is Pakistan's most significant independent nature conservation NGO, with over 20 offices nationwide. WWF Pakistan has a mission to preserve the country's incredible biodiversity and natural resources through the practices above. Since its inception, WWF Pakistan has implemented over 200 projects and programmes. WWF Pakistan works closely with local and national partners, government, private partners, research, and communities.

Brief Project Description:

In the continuity of phase I, 'Sustainable mangrove management and community development in the Indus Delta II' is being implemented in 36 villages of the lower Indus delta, comprising the sites of Keti Bunder, Kharo Chan, and Shah Bunder. The inhabitants of the project area are impoverished and vulnerable to climate change. Most of them earn their livelihood exclusively from fishing and the natural resources of the mangrove ecosystem. The mangroves are used for firewood, construction timber, animal grazing and feed, the harvest of crabs and mollusks, etc. Decades of continuous overexploitation have resulted in severe loss and degradation of the Indus delta mangroves.

Alternative livelihoods, improved value chains, and village development interventions reduced poverty and increased the resilience of local people. Nevertheless, success is still fragile. Currently, WWF-Pakistan has been implementing the BMZ-Bengo project "Sustainable Mangroves Management and Community Development in the Indus Delta. The Project aims to design three Disaster Preparedness & Climate Change Adaptation Plans tailored for communication and educational purposes. These plans will be shared with key stakeholders to ensure effective dissemination of knowledge and strategies. This effort is aligned with WWF-Pakistan's BMZ-Bengo project "Sustainable Mangroves Management and Community Development in the Indus Delta," which aims to build the capacity of vulnerable communities to enhance their resilience against climate change and disasters. By focusing on the project's goal, the plans will include strategies for community training, early warning systems, the construction of multipurpose elevated platforms, and the development of community-managed coastal disaster response units.

2) GENERAL CONDITIONS

- 1) The WWF-PAKISTAN reserves the right to reject or accept any proposal. The WWF-PAKISTAN reserves the right to proceed with the implementation of any Service, in whole or in part, as described in the Proposal.
- 2) The WWF-PAKISTAN reserves the right to engage in discussions with any BIDDER to clarify responses or discuss certain issues with regard to the proposal or services requested. The WWF-PAKISTAN has no obligation to notify the other BIDDERS of the discussions, clarifications, or other information provided by a BIDDER. Any additional information required for preparation of the BID shall be distributed to all participants at the same

time.

3) The WWF-PAKISTAN reserves the right to award the proposal based on experience, qualification, completion date, service cost and other criteria, and not necessarily the lowest cost.

4) Based on the RFP BID the WWF-PAKISTAN is entitled to change/replace or omit any clause/part of the preliminary defined scope of services of the proposal. The WWF-PAKISTAN shall conduct negotiations with WWF to achieve the full compliance to the requirements.

5) The WWF-PAKISTAN reserves the right in the event the successful CONSULTANT fails to comply with the terms and conditions as listed, to cancel this contract and award it to another CONSULTANT without penalty or action against the WWF-PAKISTAN. The RFP does not constitute an agreement or order.

6) The RFP is not a binding agreement between the parties, submission of a proposal or response by a proponent is voluntary.

7) By submitting a bid, the BIDDER is deemed to have acknowledged all of the undertakings, specifications, terms and conditions, WWF Fraud and Corruption Prevention and Investigation Policy (Annex 2) contained in the RFP, and to be bound by them if the BID is accepted. All expenses incurred by the Bidder in connection with the preparation of its proposal are to be borne by the RFP participant, and the WWF-PAKISTAN shall not incur any obligation whatsoever toward the Bidder regardless of whether such bid is accepted or rejected.

¹ Registered Industries are referred to as those industries that are registered with the Association of Trade & Industry of their respective industrial area/zone or with other sector specific association(s)
