Consultancy: Establishment of Plastic Huts and Waste Collection

To tackle the challenge of plastic pollution, WWF-Pakistan launched an initiative to inform and engage youth under an action-oriented programme on the issue of plastic waste.

As part of the project, WWF-Pakistan intends to work on Tackling Plastic Pollution through collection of plastic bottles and promote recycling in Pakistan. The objective is to collect bottles and promote recycling in the masses; recycle and reuse the collected waste, through establishment of waste recovery huts in Nathiagali and Lahore.

Tasks and Deliverables:
- Establish plastic huts of at least 8x8 ft in two major cities Lahore [Liberty/ Cooper Road] and Nathiagali [Main Bazar]; design, permissions from relevant authority, resource mobilization
- Branding on Plastic huts [WWF designs and as per guidelines]
- Depute a resource [Hut Manager] for the collection of waste.
- Monitor and keep track of all the plastic waste from collection to ethical recycling and disposal;
- Provide and maintain dashboard of users along with weight submitted and contact details.
- Collect at least 3,000 – 4,000 kg of plastic by September 25, 2021

Required Qualifications/Skills of Consultant
- Established waste collection system
- Resource mobilization
- Data maintenance through application-based system
- Registered company with company’s registration certificate
- Valid NTN certificate, a non-registered firm is ineligible to apply

Timeline:
The duration of the contract will be August 15, 2021 to September 25, 2021
